## Let's Get Started

## Support

Thank you for purchasing HUMAX Wi-Fi router. You can visit <http://quantum.humaxdigital.com/support/> to get help, access the latest software downloads and user manuals. We recommend that you use only official HUMAX support resources.

- \* Product, software, services or features in this guide may be subject to change without notice due to firmware update or any other reasons.
- \* Performance or capabilities may depend on the Internet service terms and conditions or environmental elements.

HUMAX Poland Sp.z.o.o.

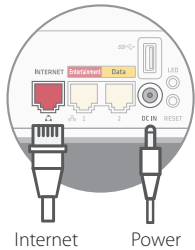

Ul. Przemysłowa 4, 97-400 Bełchatów, Poland

20007-00786 Q-GUIDE/T9/200GB

QUANTUM T9, T7, T5

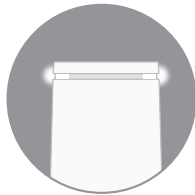

## How to install

- A. Connect the Internet cable to the red Internet port.

*Note:* You can connect to the Internet through a modem with the Ethernet cable (included). The cable must be plugged into the red Internet port.

- B. Supply power using the included power adapter.

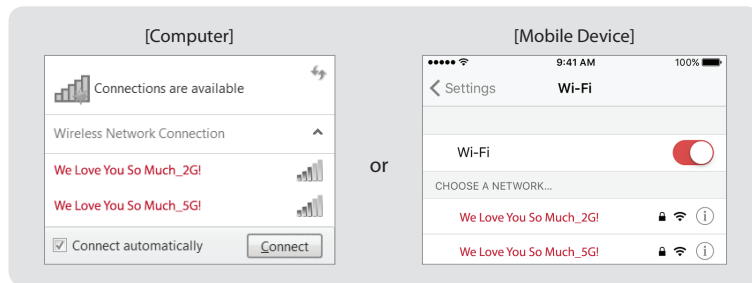

- C. Wait for the router's LED to light white.

*Note:* The router will update the firmware automatically whenever newer firmware is available. The LED lights will flicker slowly during the firmware update. It may take several minutes.

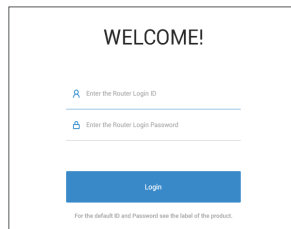

**Router Login:**  
http://dearmyrouter.net  
ID: admin / Password: XXXX

**Wireless Settings**  
2.4G SSID: We Love You So Much\_2G!  
5G SSID: We Love You So Much\_5G!  
Password: humax\_XXXX

- D. Connect your computer or mobile device to the router with an Ethernet or Wi-Fi connection:

- **Ethernet:** Use an Ethernet cable to connect your computer to the router.
- **Wi-Fi:** Use the preset Wi-Fi network name (SSID) and password on the label of the router.

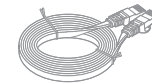

- E. Launch a web browser, visit <http://dearmyrouter.net>. If a login window opens, enter the ID and password. The ID is **admin** and the default password is **nnnn**. nnnn is the last of serial number: Refer to the serial number printed on the label of the router.
- F. Follow the wizard instructions to set up the Internet connection.

You're all done!
